

MUHAMMAD AHMER

Full Stack Developer | MERN & Blockchain

muhammadahmer1qw2@gmail.com | +923348224187 | Karachi, Pakistan | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

Computer Science undergraduate specializing in Backend and Full-Stack Development (MERN + Blockchain). Experienced in building RESTful APIs, implementing JWT authentication systems, and integrating Ethereum smart contracts with MongoDB architectures. Passionate about building scalable, secure systems.

WORK EXPERIENCE

Marketing Intern — BariTechSol

Aug 2025 – Sep 2025

- Conducted keyword research, SEO audits, and analyzed website traffic via Google Analytics & Search Console.
- Contributed to front-end tasks (HTML, CSS, JS) and revamped 5+ social media campaigns, achieving a 15% increase in audience engagement.

Web Development & Designing Intern — Syntent Technologies (Remote)

Apr 2026 – May 2026

- Worked solo on corporate web development projects, independently handling front-end design and development tasks as part of the SYN-SIP AICTE Internship program.
- Recognized for strong technical proficiency, self-driven work ethic, and consistent delivery of high-quality results within deadlines.

PROJECTS

MediCheck – Pharmaceutical Supply Chain Tracking System

[Live](#) 

Node.js · Express.js · MongoDB · Ethereum · Solidity · Web3.js · JWT

- Built a full-stack medicine tracking system using blockchain for immutable, tamper-proof record storage across manufacturers and pharmacies.
- Designed 15+ RESTful APIs with JWT role-based auth, MetaMask wallet login, email notifications, and MongoDB–blockchain sync.

Midway Hospital – Responsive Healthcare Website

[Live](#) 

React.js · Vite · Tailwind CSS

- Built a fully responsive hospital website with reusable React components, appointment booking form with client-side validation, and Google Maps integration.
- Optimized for cross-device performance and deployed on Vercel with production build configuration.

NexHub – Project Portfolio Hub

[Live](#) 

HTML5 · CSS3 · Vanilla JavaScript

- Dark-mode portfolio aggregator with dynamic project cards, live search, tag filtering, modal detail views, and scroll-reveal animations — zero dependencies.
- Achieved fast load times and smooth UX through pure vanilla JS with no external libraries.

VidDown – Multi-Platform Video Downloader

Next.js · TypeScript · Tailwind CSS · Node.js · Express · yt-dlp · FFmpeg

- Built a full-stack video downloader supporting YouTube, Instagram, TikTok, Facebook, and X, with multi-format export (MP4 360p–1080p, MP3 128–320kbps).
- Architected a production-ready deployment with Docker Compose, PM2, and Nginx, integrating yt-dlp and FFmpeg for media extraction and conversion.

SalesMind AI – AI-Powered Sales Assistant for SMEs

React · Node.js · Express.js · MongoDB · OpenAI API · JWT · Google OAuth

- Built a full-stack AI sales tool with lead management, AI-generated outreach emails, follow-ups, and lead scoring (0–100 with reasoning).
- Implemented JWT auth, Google OAuth, MFA via email, and a full analytics dashboard with pipeline charts and AI usage stats.

EDUCATION

Bachelor of Science in Computer Science — Iqra University, Karachi

2021 – 2026

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, Solidity

Frontend: React.js, Next.js, HTML5, CSS3, Redux, Tailwind CSS

Backend: Node.js, Express.js, REST API

Database: MongoDB, SQL

Blockchain: Ethereum, Web3.js, Solidity, MetaMask

Tools & Security: Git, GitHub, Postman, Wireshark, JWT, RBAC, Docker

CERTIFICATIONS

IBM Full Stack JavaScript Developer · ISC2 Certified in Cybersecurity (CC) · Google IT Support Professional Certificate
